The following is background you requested:

Late August/early September 1983, DDA/OC became aware that Ken de Graffenreid, NSC, was pushing for revision [redacted] OC alerted OS/ISSG. On 8 September, Dick Long made his response available to DD/P&M. It was also "seen" by DD/OS on 8 September. [redacted] was alerted to the issue by Chairman/SECOM, on 8 September, and asked PPG [redacted] to provide him with what was then the only PPG copy of [redacted] input.

The [redacted] issue generated considerable high level Intelligence Community interest. Re-drafts were commissioned and by 11 October 1983 were completed. OC and OS/ISSG were involved in that process, as was the Computer Security Subcommittee/SECOM. Mr. [redacted] SECOM, provided a copy of the "FINAL" draft to PPG [redacted] on 14 October 1983. C/PPG reviewed it that afternoon. Our only copy, it was "routed" to DD/P&M and to D/OS immediately after [redacted] saw it. A phone call from Chairman SECOM to D/OS resulted, instead, in [redacted] asking for (and receiving) the document immediately. He then kept it in his safe thereafter.

inputs, continued to work the problem and prepared for [redacted]

[redacted] signature, the

28 October 1983 memorandum to the DDCI expressing ICS's concerns relating to the proposed revisions. The memorandum, among other things, recommends deliberate progress, with appropriate (continuing) CIA inputs. [redacted]

C/OS/ISSG, has asked that PPG provide him with a copy of [redacted]

[redacted] 28 October memorandum

STAT

With your concurrence, we will do so. D/OC has already been sent a copy by the ICS.

The answers to [redacted] specific questions are:

STAT

- 1) Background as above.
- 2) ISSG has been in on it from the beginning.
- 3) We agree with [redacted]
- 4) OC went straight to ISSG (by phone and hand carry, but PPG was immediately alerted in the 8 September timeframe.)
- 5) There is nothing we can or need to do now except to keep Management aware of developments in this fast-moving and highly charged turf battle.
